

Dominion Energy Waste Heat Treatment Facility (WHTF) Buoy Requests – Private Side

FAQ

- ❖ I would like to place a regulatory marker on the warm side (private side) of Lake Anna, where do I make application?

If you would like to request the placement of buoys or other regulatory markers, please complete a [Buoy Application](#). The application packet includes important details and the complete process.

- ❖ Once a buoy has been approved and installed, can it be moved to an alternative location?

Written approval of Dominion Energy must be obtained before relocating any marker. If Dominion does approve a marker's relocation, the Lake Anna Advisory Committee shall be notified.

- ❖ Who is responsible for the maintenance of a community regulatory marker and maintenance or replacement of a damaged or missing regulatory marker?

Maintenance on uniform waterway markers shall be assumed by the entity or individual who placed the marker. All markers shall be maintained in proper condition.

- ❖ Who is to be notified if a regulatory marker is damaged or missing?

*Dominion Energy; North Anna Power Station
